Decorative Options and Warranty

Warm and welcoming, the beautiful comfort of home.

Classic Colors.
Liberty Windows are available in White and Beige to complement a variety of home exteriors and interior décors.

Warranty Coverage.
Liberty Windows are made for BlackBerry by Alside, a recognized leader in product innovation, manufacturing excellence and uncompromising quality control. That’s a reputation you can depend on, from the day your windows are installed until the day you sell your home.

Liberty Window carry a lifetime limited warranty. Please see the printed warranty for complete details.

Products for every Architectural need.
For a variety of looks from traditional to contemporary, no matter what the application is, BlackBerry has you covered. Ask about our collection of beautiful energy-efficient sliding patio doors and maintenance-free vinyl siding.

Interior Grids.
Adding a decorative contoured grid will lend a measure of style and dimension to your windows. The grids are enclosed within the insulated glass unit for easy cleaning. Choose from three attractive grid patterns to design the ideal window for your home.

Patterns
- Colonial
- Prairie
- Double Prairie

Profiles
- Contoured Beige
- Contoured White

Liberty Windows are expertly crafted to provide year-round comfort, energy efficiency and lasting value. Featuring fusion-welded sashes and mainframe, multi-chambered extrusions, composite-reinforced interlocking meeting rails and an insulating glass unit, Liberty Windows will deliver years of smooth operation and thermal protection.

Enduring style, easy upkeep.
You’ll appreciate the quality craftsmanship and carefree maintenance of Liberty Windows. The premium vinyl mainframe and sashes won’t rot, split, corrode or pit like painted wood windows and won’t swell or warp from exposure to moisture. Your windows will maintain their attractive appearance inside and out with minimal upkeep.

Double-Hung Windows.
Our double-hung windows combine classic good looks with superior functionality. Both sashes tilt-in to offer convenient cleaning from inside your home.
- Fusion-welded mainframe and sashes for added strength.
- Interlock at sash meeting rails creates a tight seal against air infiltration.
- Sloped sill forces water to drain to the exterior of the window.
- Constant force balance system ensures smooth sash operation.

Sliding Windows.
The generous glass area of sliding windows offers an infusion of natural light and an unobstructed outdoor view. Sleek sashes glide horizontally and lift out for easy cleaning.
- Fusion-welded mainframe and sashes for added strength.
- Multi-chambered sash and mainframe create increased strength and thermal efficiency.
- Interlock at sash meeting rails provides strength and stability for easy operation.
- Fully extruded lift rails provide strength and stability for easy operation.
- Sloped sill forces water to drain to the exterior of the window.
- Hidden screen track for clean lines and added beauty.
- Bulb seal at the sill creates extra protection from dust, dirt and air infiltration.

Plus these Additional Features:
- Fusion-welded frame and sashes add strength and rigidity.
- Dual vent stops provide a limited and convenient opening of the window for ventilation.
- Constant force balance system eliminates sash cords, weights and pulleys and provides easy raising and lowering of the sashes (double-hung window).
- Protective double-barrier fin seal weatherstripping at sash sides helps block dirt, noise and air infiltration.
- Beveled exterior profile gives windows a clean, elegant look.

Quality Crafted for Superior Performance.
1. Vinyl mainframe and sashes won’t chip, peel, crack or warp; the premium vinyl color is formulated throughout so the beautiful luster lasts.
2. Multi-chambered sash and mainframe create insulating air spaces for increased thermal efficiency.
3. Insulated glass unit* with the PPG Intercept® Warm-Edge Spacer System helps achieve year-round energy conservation.
4. Interlock at sash meeting rails provides increased strength, insulation and comfort.
5. Protective bulb seal helps prevent air infiltration at the meeting rails.
6. Drop-in glazing for extra protection from the elements.
7. Fully extruded lift rails provide strength and stability for easy operation.
8. Sloped sill forces water to drain to the exterior of the window.
9. Hidden screen track for clean lines and added beauty.
10. Bulb seal at the sill creates extra protection from dust, dirt and air infiltration.

Insulating ClimaTech® Glass Packages.
Reducing energy loss is often the number one reason for purchasing replacement windows. When you consider that windows are roughly 80% glass, you’ll see why upgrading your windows with an insulated glass system can significantly improve the overall energy efficiency. Our optional ClimaTech glass package combines insulating Low-E (low-emissivity) glass, argon gas and the Intercept Warm-Edge spacer system that features a unique, one-piece metal alloy, U-channel design that creates an effective thermal barrier. ClimaTech insulated glass packages have proven to be far more effective than ordinary insulated glass units. Low-E glass also helps minimize UV rays that can cause furnishings to fade.

11. Bulb seal at the sill creates extra protection from dust, dirt and air infiltration.
